

Orientation Day 2 - 02 June 2024

• Data Foundations

used for coding
check YT for videos

• Data Bricks (platform we will use for this course)

↳ Databricks for Beginners Course

↳ **Create a certificate from DataBricks - very valuable**

- Microsoft certification useful as well - around 1k to write an exam for the certificate

- GitHub (used to build our portfolio)

- Canva (used to build presentations)

and Google Sheets

- Excel (used to do analysis & tables for presentations on Canva)

- Data Studio

- SQL (for coding)

- GCP

- Machine Learning & Building [Python]

- Google Collab

- Draw.io (architecture, planning & drawings)

• **Read the Doc - intro to Databases**
